

You want to become a star?  
Love the dirt as well as the gold boy  
And you will go far  
Hold my hand to your heart  
And feel deeply every wave of energy  
These are the mega (love) bytes of your soul  
The currency of your life  
That you strum with a metal guitar  
On your way to becoming a star.

Pay attention to the  
Rhythm  
And feel your hand on your chest  
Breath into every cell  
Feel the vibration  
Be true to that direction  
And where the intention leads you

Hold my hand in your hand  
And if the energy moves you  
In the right direction  
Let's go together, for awhile  
You smiling and joking, me laughing  
Us together  
It  
Feels  
Good  
Like  
Natural  
Like  
We  
Were supposed to meet  
And be  
Together  
For now for a time who knows  
Weaving the threads of our part of the story together  
In every beautiful and incredible fashion
